PROJECTS

Planet View | *HTML, CSS, JS, Python, Flask, ChartJS*   May. 2023
- It is a website which uses a ML model to convert satellite images into segmented images.
- The website is designed to provide information and statistics about nearby river conditions, climate conditions etc.
- github.com/Maheshwar098/PlanetView

CivicConnect | *HTML, CSS, EJS, Javascript, NodeJS, ExpressJS, REST API*   Feb. 2024
- This project enables citizens to report issues, provide feedback, and monitor the progress of government projects
- The platform offers government officials a user-friendly interface to add, manage, and track infrastructure projects, public services, and initiatives.
- The platform offers government officials a user-friendly interface to add, manage, and track infrastructure projects, public services, and initiatives.
- github.com/anushkadoiphode07/HackForge—ByteKarma—1B

FX Currency | *ReactJS, MongoDB, NodeJS, ExpressJS, ChartJS*   Dec. 2023
- Developed a USD-centric currency exchange application, enabling users to choose specific currencies and dates for rate lookup.
- It also provides added functionality for chart analysis of selected currency pairs over custom time frames.
- github.com/kishanlalchoudhary/PICT_17_FX_Currency

ACHIEVEMENTS

Hackforge   Feb. 2024
- Our team achieved 2nd prize in the Web Development domain at the HackForge hackathon held at P.E.S. MCOE, Pune. We developed a Citizen Reporting and Monitoring System to enhance transparency and accountability in governance.

EXTRA-CURRICULAR

- Playing Badminton since 7 years, and have participated, and won in various district level tournaments. Currently I am leading PICT badminton team.
- Currently I am volunteering at PICT NSS Club, PASC Club, Bhumi NGO
- I am an avid reader and also enjoy writing in my spare time. I have always loved listening to music and podcast.
